

CONTRACT

MANUFACTURERS since 1964

Dormiflex is a Venetian company specializing in the production of mattresses for the residential and hotel sector. Tradition and innovation are the key words in the Dormiflex family. Their products, made entirely in Italy are realized with natural materials of first-rate quality. A high level of quality guaranteed by the company whose prime objective is the absolute satisfaction of the client. A reality that came to fruition fifty years ago and still to this day, speaks the language of the artisan capable of interpreting the needs of every single client but with the resolution, the fresh enthusiasm, and the capabilities that only a large company can offer.

Dormiflex is a company that is able to guarantee even your dreams , through technology, tradition and the continuous innovation of their own patents.

The international Air System patent

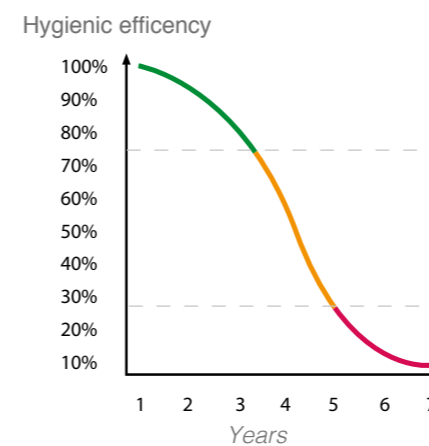

Air System is a patented and internationally certified system capable of ensuring maximum hygiene and a surefire defence against the proliferation of mites.

Air System is an innovative patent that guarantees:

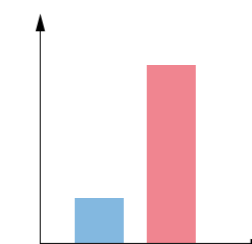

- * a continuous exchange of air even on the most internal parts of the mattress.*
- * the absence of foul odours on the inside of the stuffing and the absence of stagnation of damp air inside the mattress*
- * maximum comfort of a beneficial and healthy night's rest*
- * reduction of the possibility of contracting allergies to mites*

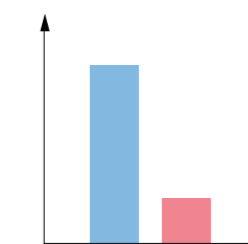

Hygienic life cycle of the mattress

Reproduction of dust mites inside the mattress

Constant air exchange in to the mattress

With Air System
Without Air System

INTERNATIONAL PATENT N° 1.392.455

Certification

The quality of our products is guaranteed by international recognition. The certification by a qualified independent institutions and guarantees the origin of raw materials, how they are processed and respect for nature.

Dormiflex products meet the essential requirements for the marketing and use in the European Union.

Safety certification, fitness and endurance for everyday products.

The German organization TÜV Rheinland Product Safety certifies that the motors used in bed bases Bonamassa within the parameters of low electromagnetic emission.

The management system complies with international standards of quality management ISO 9001 which relate to the continual improvement and customer satisfaction.

GS means "proven safety": the German organization TÜV Rheinland Product Safety Bonamassa certifies that the bed base has undergone a series of tests and found safe for use by the user.

The mattresses and bed bases Dormiflex are recyclable to be processed in the time in new sources of product.

The Slates of bed bases Dormiflex have a low formaldehyde content in accordance with the European regulations.

The International Oeko-Tex®, after detailed tests, ensures that the textile products used in our mattresses and accessories are free from substances harmful to human health, in compliance with Oeko-Tex® Standard 100.

The Catas certification body, specializing in tests on the durability of products, attests to the resilience of bed bases Dormiflex by stress tests (eg elasticity of the slates, sturdy frame).

The Catas certification body, specializing in tests on the durability of products, attests to the resilience of bed bases Dormiflex by stress tests (eg elasticity of the slates, sturdy frame).

Available with bed skirt component

Sommier Springs

- Fireproof coating
- Centreless non-slip fabric panel
- fire-retardant polyurethane foam with high density
- flame retardant fabric
- felt agglomerated
- Bonnel spring-loaded carbon steel phosphate
- Perimeter frame in solid spruce
- MDF top for spring support
- Support for foot fixing
- Dustproof bottom cover

Sommier AIR

- Fixed fire retardant liner
- Centreless non-slip fabric panel
- fire-retardant polyurethane foam with high density
- Countertop in solid wood boards
- Perimeter frame in solid fir with spaces for indoor ventilation
- foot fastening support
- dustproof background cloth

Sommier Rigid

- Fixed fire retardant liner
- Centreless non-slip fabric panel
- fire-retardant polyurethane foam with high density
- Countertop in chipboard wood
- Perimeter frame in solid spruce
- foot fastening support
- dustproof background cloth

Disponibile anche il piano doga letto

Pullout vertical bed

Available in versions :

Arco/Arco

Onda/Onda

Quadra/Quadra

Middle height/Side height

Arco 91/75

Onda 91/75

Quadra 91/91

thickness 6 cm

- The headboards have a wooden structure covered with a layer of fire-retardant material 1cm thick
- Final thickness of the headboard is 6cm, width of 250cm
- The LUNGA headboards are available in three versions: ARCO, ONDA and QUADRA
- The LUNGA headboard must be mounted directly to the wall in order to consent rapid conversion of a master bedroom into a double room.

Pullout vertical bed

Vertical bed base with integrated legs and wheels to facilitate movement of the bed.

Diamond shaped structure in 38x37 stainless steel, thickness 1.3.n 14 bed slats in multi-layered beech wood Atoxic varnish in shiny anti-scratch black.

Possibility of:

- Mounting a bed skirt, including a "hood" for the headboard in the range of fire-retardant fabrics available
- anchoring the mattress directly to the bed base in a vertical position.
- supplying a cover to protect the mattress and the bed base in a vertical position.

width:
80 · 85 · 90 · 95 · 100 · 120

length:

Final height:
30 cm

long Headboard

Corelli

Corelli is a bed skirt complement in fabric which allows you to adorn a basic wood or metal bed base quickly and easily. Available in a wide range of fire-retardant fabrics.

MATTRESS ZIP

The Mattress zip allows two single mattresses to be joined. The result is a double mattress that is more stable and accommodating

Memory, a technological choice

PILLOW MEMORY AIR 1®

PILLOW MEMORY AIR 2®

Pillows in memory

- Thermo-variable comfort result of high technology
- Thermo-elastic with new concept "selfmodelling" material
- Micro-vented, ultra breathable with slow decompression
- Patented Air System

- Follows the natural curves of the neck.
- It adapts without creating tension.

Aloe Memory, a Natural choice

PILLOW MEMORY ALOE VERA SAPONETTA®

PILLOW MEMORY ALOE VERA DOPPIA ONDA ®

Pillows in memory

- Thermo-variable comfort result of high technology
- Thermo-elastic with new concept "selfmodelling" material
- Micro-vented, ultra breathable with slow decompression with Aloe Vera essential oils
- Patented Air System

- Follows the natural curves of the neck.
- It adapts without creating tension.

Trittico

Orthopedic fiber

Loris Bonamassa

SLEEP WELL TO LIVE BETTER

Loris Bonamassa was born in Padua in 1970. He graduated in Business Economics at the Ca 'Foscari University of Venice and obtained a master's degree from the University of Bologna.

He has traveled and lived abroad for the past five years, with his wife and son. He is a member of the family business, a director in charge of the Sistemi per Dormire group and member of the EBIA (European Bedding Industries' Association). For over 25 years he has taken care of rest, with experience on the "bed system" and various collaborations in the world of health and sports at the national level. Today it is Sleep Advisor and helps people, especially sportsmen, to sleep better at night to be more in shape during the day.

He is a graduate of the MICAP (International Master in High Performance Coaching), the program that certifies the Real Result Coach.

The 5 STEPS of good sleep

If you follow "the 5 SIMPLE STEPS OF GOOD SLEEP", anyone can improve his sleep and his general state.

1. UNDERSTAND THE SLEEP "knowing what it is for, how it works, how it changes over time, what to do to improve it and what to avoid

2. UNDERSTANDING HOW IT IS FACTS "with its uniqueness: man, woman, child, adult or elderly, weight age, constitution, type of work that is done, lifestyle, and finally, a way to sleep

3. UNDERSTAND HABITS AND BEHAVIORS "turning them into good habits and good behavior to keep before going to bed, just wake up in the morning and during the day

4. UNDERSTANDING HOW TO CHOOSE THE RIGHT BED " mattress, net and cushion, how to use it and how to maintain it over time so that it lasts in a healthy, hygienic, healthy and orthopedically correct way.

5. UNDERSTANDING HOW THE BEDROOM MUST BE ", the orientation of the bed and furnishings, the temperature, the noise, the degree of light, the degree of hygiene given by the absence of allergens and electrostatic and electromagnetic currents; because the environment is also important.
